SUMMARY

I am a Front-end Developer interested in designing a website with a comprehensive design process centered on user interaction and experience to create perfect web pages. I am a fan of digital and technology, design and always have a focus on simplicity and care for everyone's experience.

As a Front-end Developer with a passion for website design, my aspiration is to live and work in a creative and dynamic environment, together with people who have the same passion to create high quality websites.

JOB GOALS

Short-term	Have a stable job, become an excellent employee, accumulate more experience.
Long-term	Become a Tech Leader.
